

Three Smart Tips to Clean Your PC

1 : "Say No to Virus & Spyware"

2 : "Put on Armor of Fire"

3 : "Seal all Cracks"

"3 Smart Tips"

Health Check

How secure is your PC? Let's check it out:

- | | Yes | No |
|-----------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|
| 1 You have installed anti-virus software on your PC | <input type="radio"/> | <input type="radio"/> |
| 2 You have installed anti-spyware software on your PC | <input type="radio"/> | <input type="radio"/> |
| 3 You have installed personal firewall on your PC | <input type="radio"/> | <input type="radio"/> |
| 4 You apply security patches regularly on your PC | <input type="radio"/> | <input type="radio"/> |
| 5 You have enabled Real-time Detection and Auto Update features of the anti-virus & anti-spyware software | <input type="radio"/> | <input type="radio"/> |
| 6 You have scanned your PC with the latest virus & anti-spyware definition file in the past 7 days | <input type="radio"/> | <input type="radio"/> |
| 7 You block unknown traffic using personal firewall | <input type="radio"/> | <input type="radio"/> |
| 8 You obtain security patches only from authorized and trusted sources | <input type="radio"/> | <input type="radio"/> |
| 9 You are using OS and applications currently supported by vendors | <input type="radio"/> | <input type="radio"/> |

If there is a "NO" in any of your answers, your PC may have been infected by computer virus or spyware, or invaded by hackers. You'd better follow the "3 Smart Tips" to clean your PC.

"3 Smart Tips"

Take Action Now

Please follow the "3 smart tips" below to clean your PC. If you encounter any problem, please call HKCERT's Hotline at 81056060.

Tip 1 : "Say No to Virus & Spyware"

- Install and enable anti-virus and anti-spyware software
- Enable Real-time Detection and Auto Update features
- Scan your PC regularly with the latest definition

Tip 2 : "Put on Armor of Fire"

- Install and enable personal firewall
- Block all unknown traffic

Tip 3 : "Seal all Cracks"

- Apply security patches regularly
- Enable "Auto Update" feature
